PROFESSIONAL SUMMARY

Junior software developer with a Diploma in Computer Science & Technology, focused on full stack web development. Builds React and Next.js applications with TypeScript and Tailwind CSS, backed by Node.js, Express.js, and MongoDB. Hands-on experience with REST APIs, JWT and session-based authentication, and third-party integrations such as the Gemini API, ImageKit, and Resend. Eager to build maintainable, user-focused software in a collaborative engineering team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Responsive Web Design, React Context API

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Better Auth, Authorization, Email Verification, Password Reset

Database: MongoDB, MongoDB Atlas, CRUD Operations

Programming: C++, Python, Data Structures and Algorithms [confirm level]

Tools and Platforms: Git, GitHub, Postman, VS Code, Vercel

Integrations: Gemini API, ImageKit, Resend

PROJECTS

AI Resume Builder | React, Vite, Express.js, MongoDB, JWT, ImageKit, Gemini API

- Built a full stack web application that helps users create, edit, and manage professional resumes with AI assistance.
- Integrated the Gemini API to generate professional summaries and enhance job descriptions [verify].
- Implemented JWT-based authentication and protected routes so each user can access only their own resumes [verify].
- Integrated ImageKit for image upload and resume customization [verify].

FitLog - Workout Tracking Application | Next.js, TypeScript, Tailwind CSS, React Context API

- Developed a responsive workout tracker where users browse a workout library, view workout details, and save workouts to personal plans [verify].
- Managed shared application state with the React Context API to track saved and completed workouts [verify].
- Built reusable, typed UI components with TypeScript and Tailwind CSS for a consistent experience across screen sizes [verify].
- Added workout duration and calorie summaries for completed sessions [verify].

Authentication Application | Next.js, TypeScript, Better Auth, MongoDB, Resend, HeroUI

- Built a secure authentication system with user registration, sign-in, and session management using Better Auth and MongoDB.
- Implemented email verification and a password reset workflow using Resend [verify].
- Developed a profile update feature with form validation and user-facing error handling [verify].

EDUCATION

Diploma in Computer Science & Technology (CST)
Infra Polytechnic Institute, Barishal, Bangladesh
Session: [Confirm session] | Expected Graduation: [Month Year] | CGPA: [Insert CGPA or omit]

Secondary School Certificate (SSC)
Laluya Janata Secondary School
GPA: 4.00 [confirm] | Year: [Insert passing year]
